PROTECTEDPDF SBE

Protectedpdf SBE provides smaller organizations with a quick and user-friendly solution to preventing unauthorized access to PDFs with valuable digital content and minimizing misuse of confidential materials. Protectedpdf also tracks who is reading your PDFs to determine whether piracy of your PDFs is occurring.

PROTECTEDPDF ENTERPRISE

Protectedpdf Enterprise Edition is a robust and flexible PDF protection solution that deters against PDF content piracy and information misuse while seamlessly integrating into existing IT systems and DRM processes. Protectedpdf can either be installed on-site or hosted as a Software-as-a-Service application.
